42-documentation

April 29, 2016

1   HTML Documentation of your code

- two main tools

1.0.1   pydoc

- reads file.py and creates file.html
- not very attractive

pydoc -w file

1.0.2   epydoc

- reads file.py . . .
- creates html/file.html . . .
- more attractive, similar to javadoc

epydoc –html file.py
